

**The Long Island Places of Worship Clean Energy Committee
invites all places of worship (of all faiths) to a workshop on:**

ENERGY EFFICIENCY FOR RELIGIOUS CONGREGATIONS

**MOLLOY COLLEGE SUFFOLK CAMPUS
7180 REPUBLIC AIRPORT, FARMINGDALE, NY
THURSDAY, MAY 10, 2007**

10:00AM - 12:30PM

LUNCH WILL BE SERVED

All places of worship use energy and often pay large bills. Energy efficiency and renewables are an important way to reduce energy consumption, help the environment, and maybe even lower energy costs.

Come learn why energy efficiency makes us good stewards of the earth, what financial incentive programs are available to places of worship, and what other inspiring places of worship in our region have already achieved.

*This is the first workshop of this sort on Long Island, so **don't miss out!***

Speakers include: Edward Thompson, Molloy College
Rabbi Larry Troster, Greenfaith, NJ
Randy Spitzer, LIPA
Bruce Johnson, Keyspan
Sr. Jeanne Clarke, Queen of the Rosary, Sophia Garden
Moderator: Beth Fiteni, Neighborhood Network

**There is no fee for this workshop
but the information is invaluable!
Leaders and plant managers of all
faiths welcome. Please RSVP to
Beth Fiteni, 631-963-5454.**

Directions:

- Take the Southern State to Route 110 north (exit 32N), go 1/2 mi, turn right on Grumman Lane, 2nd building on the left.
- From the LIE go south on Route 110 (exit 49S), go about 1 mile past Farmingdale University and turn left on Grumman Lane, 2nd building on the left.

The Long Island Places of Worship Clean Energy Committee is made up of various faiths including representatives from Catholic Charities, Unitarian Universalist Fellowship of Huntington, St. Martin of Tours Outreach, Amityville, Sophia Garden/Homecoming, the LI Council of Churches, Molloy College, and New York State Interfaith Power & Light.
